

Novation™ Decking

**NOVATION**

Time For Something Different

## Built for a life of ease

It's hard to find the perfect deck. Wood may look great when it's installed — but rain, sun, heat, and cold can quickly change appearances. You could find yourself spending hours or even days at a time painting, staining, and sealing wood in an effort to keep it looking as good as possible.

Novation™ Decking from Royal Outdoor Products is a better choice. With Novation, there are no worries about rotting, cracking, splintering, or so many issues that plague other decking systems. You won't have to spend valuable time on maintenance, either. Simply spray your Novation deck with a hose to remove dirt and debris, then sit back, relax, and enjoy your outdoor space.

Novation makes it just that easy.

## A lasting alternative to traditional decking products

Novation™ is made from high-quality cellular PVC that provides superior durability compared to composite decking materials. As a result, Novation is more tolerant of weather and moisture; it won't mold or become damaged by insects. Its unique, encapsulated surface means added protection, so your deck's color stays beautiful and consistent year after year; the deep natural woodgrain is not only beautiful, but adds slip resistance for more safety.

Best of all, you know you can trust Novation Decking, because it's backed by Royal Outdoor's Lifetime No Rot® guarantee.

## Truly carefree

With Novation™, you won't have to worry about who's using your deck, or how they're using it. Our durable cellular PVC construction stands up to tables and chairs, spilled drinks and more. Because it won't splinter or crack, it's safe for bare feet as well.

Novation truly is simplicity at its finest — making it a perfect choice to enhance any outdoor space, whether you're designing a place to entertain, or a personal retreat.

Before

After

### Superior Stain Resistance

Barbecue sauce, vegetable oil, and ketchup were used to demonstrate Novation's stain resistance.

- Novation (A) was wiped clean with a cloth, leaving no trace of residue.
- Standard wood decking (B) absorbed moisture and was left stained.
- A typical composite plank (C) also showed the stains.

Novation also resists scratching, which means you won't be concerned when guests move furniture around on your deck.

Novation's water repellence means you won't have concerns about rotting or molding over time, no matter what your climate is like.

With a clean, finished edge, Novation looks great from every angle.

Installation is simple. No special fasteners or tools required; just screw it down to the substructure.

## Solid construction

Novation™ Decking systems are built to last a long time. While composite materials can become damaged by simple screws, Novation's solid-board construction ensures that it won't crack at installation, or for decades to come. So you can enjoy its natural, hardwood appearance without the hassles of maintenance and repairs.

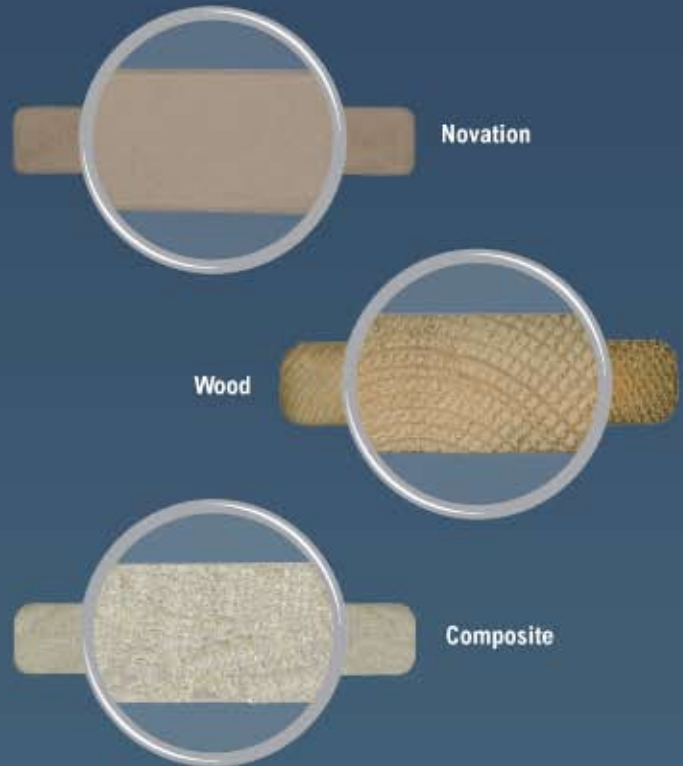

Novation

Wood

Composite

You can see the difference when you compare Novation to other decking products. With Novation, you get pure, solid construction. However, wood and standard composite decking contain fillers that can absorb moisture and become weakened over time.

Royal Outdoor offers railings in matching colors to add the perfect finishing touch to your Novation deck.
