RESTORATION MILLWORK[®]
Exterior Trim

Work with the authenticity of Restoration Millwork®

A home's trim says a lot about a craftsman's attention to quality and detail. Today's material of choice for craftsmen is CertainTeed Restoration Millwork. Like the finest top-grade lumber, Restoration Millwork cuts, mills, shapes and routs like wood. But since it's made from cellular PVC, it outperforms wood by

far—with no worries about rotting, warping, moisture or insects. As for designability, it's heat-formable for curves and arches, and a choice of Smooth or TrueTexture™ woodgrain finish offers even more options.

Trimboards, corners, heat-formed window application, and column-wrapped application with sheets

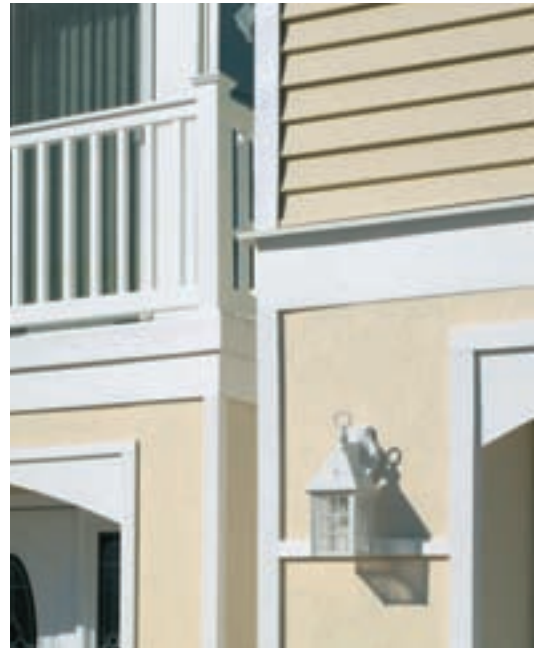

Painted Restoration Millwork with Monogram Double 4" Clapboard in Oxford Blue

The superior benefits of Restoration Millwork

- Superior quality and excellent dimensional accuracy
- Natural White—ready to install
- Highly resistant to UV yellowing
- Low-maintenance, long-lasting material
- Cuts, shapes, routs and mills with traditional woodworking tools
- Fastens with nails or screws
- Class A (Class 1) Flame Spread Classification
- 25-year limited warranty

Make an impression with long-lasting, beautiful looks...

the possibilities are endless.

Cedar Impressions Double 7" Straight Edge Perfection Shingles in Flagstone

We're coming clean with CertaPak™ packaging.

To keep Restoration Millwork® clean and white, trimboards are protected with CertaPak shrink-wrap packaging. It protects a brilliant product so dust and dirt won't compromise your beautiful installation.

Don't settle for less. TrueTexture™ finish is the most real.

An impression from real cedar was applied to Restoration Millwork.

Traditional trim.

To what is already a comprehensive offering, we've made some notable additions: we now provide a **1-1/2" trimboard and corner with deeper pockets** to accommodate siding with 1" projections, as well as **smooth trimboards that are 16" wide**.

CustomCraft™ Custom fabrication made simple.

With new sizes and lengths available in our 1-1/2" trimboards, you now have more time-saving, waste-reducing options than ever.

- Available on both 4' x 8' sheets and 10' x 18' trimboards
- Less laminating, time and labor
- More material for dramatic, routed looks
- Ideal for custom fabrications:
 - Window sills, mouldings and trim
 - Eave and porch decorative brackets
 - Pergola end designs
 - Pediments and window headers
 - Raised and routed panels

1-1/4" Actual Thickness

Custom combinations create dynamic style.

There's no limit to how Restoration Millwork profiles can be combined for unique looks.

This trimboard accented with base cap shows no matter how simple the project, you can add detail and interest.

Dressing up cornice moulding can be as easy as detailing trimboards with rake.

Different sizes of trimboards combined with bed mould and base cap present a stately, colonial feel.

The use of crown moulding elevates any exterior trim application, creating a more formal look.

Even more intricate and ornate, use crown moulding and base cap to make a highly elegant statement.

Curb appeal. And then some.

With so many different design details, Restoration Millwork is the trim for giving your home special curb appeal. But it's also the ideal material for imaginative craftsmen. Chairs, tables, planter boxes and more await your creative skills.

Trim. And siding. From one trusted source.

Need more exterior design options? We certainly have them. CertainTeed, in fact, has the industry's broadest lineup of color and style choices in siding, including vinyl, polymer and fiber cement.
